- Basic Troubleshooting in Computer and Laptop

ABOUT ME

A skilled IT professional with 3 years of experience in software testing across various industries. In my previous role, I was the sole tester in the Philippines within our team, managing testing independently while collaborating with global teams—enhancing my adaptability and problem-solving skills. I successfully completed the project, further strengthening my ability to deliver quality results. I take pride in working with heart—valuing respect, open communication, and a culture of accountability and responsibility. Looking for my next opportunity to grow more and further develop my skills in the IT industry.

WORK EXPERIENCE

ERP/SAP Test User October 2024 - March 2025

Nezda Services Inc. (Deployed to Bosch Service Solutions, Inc.)

- Conducted system testing on SF4 and QF4 environments across SIT1, SIT2, and UAT phases, ensuring software functionality and stability.
- Became the sole tester in the Philippines within our team, handling all testing activities independently after initial training with my manager.
- Developed strong self-reliance and problem-solving skills, managing test execution and defect reporting with minimal supervision.
- Collaborated with global teams through regular meetings and test updates to align on testing progress, issues, and resolutions.
- Actively participated in defect triage discussions, providing detailed insights to help developers and stakeholders resolve issues efficiently.

Junior Quality Analyst March 2024 - September 2024

Computer Professionals Inc. (Deployed to Allianz PNB Life Insurance)

- Execute test cases, document test results, report defects, and follow up on their resolution.
- Collaborate with senior QA team members to review test cases and improve testing processes.
- Collaborate also with developers and other team members to isolate, debug, and resolve issues as they arise.
- Ensure all tests are conducted and documented based on project timelines and quality standards.

Junior Tester October 2022 - December 2023

WeSupport Inc. (Deployed to Tech Mahindra)

- Responsible for discovering errors and finding bugs. Creating a defect summary and ensuring the compilation of test evidence.
- Executing the plan and managing all activities in the plan to ensure that all the objectives are met and that the solution works as expected.
- Work prioritization, effective communication, and teamwork are needed to solve the different issues encountered.

Quality Assurance Analyst (OJT) April 2022 - July 2022

Networld Capital Ventures Inc.

- Responsible for the creation of a complete test plan.
- Supported the company in maintaining a work environment focused on quality, communication, collaboration, integration, and teamwork.

I hereby certify that the above information is true and reliable and can be used for future purposes.
